Kristyn Grime, Community Development Manager for the American Cancer Society - Western Region thanked everyone for their support and stated, "This donation allows ACS to continue serving cancer patients and their families in Orange County. In 2020, the tournament contribution helped us serve over 650 patients in the Orange County area alone! ACS helps patients and their families with their most pressing needs such as getting rides to treatment, navigating the healthcare system, or dealing with the side effects of treatment. Whatever the need, the American Cancer Society is here to support you."

Platinum sponsors of this year's tournament included: Bell Laboratories, MetroFlor Corporation® and Paradigm Conquest. All event proceeds benefit the American Cancer Society in its mission to provide funding for cancer research, and patient support services.
